

OUR STRENGTH IS IN OUR ROOTS

Know Who We Are

TLA members operate small to medium-sized businesses in your communities.

Many of our members harvest and haul trees. But we also have members, such as Coastland Wood Industries in Nanaimo, that produce wood products or Westcoast Tug & Barge in Campbell River that haul logs and many other products up and down BC's coast. We also have members who supply the forest industry. Finning is a long-time TLA member—and so are Great West Equipment and Inland Kenworth/Parker Pacific.

No matter what their business does, all TLA members are local business people who want to see their coastal communities flourish.
